**WEST HATTON LAVENDER 10th x**

Sold by W. H. McCeney, Jr., to Lynwood Farm for \$4,000.00 in 1952. She closed her great show career standing second in class at the 1954 Denver National with many of the nation's top horned herds competing.

## **HER FULL SISTER SELLS—LOT NO. 37**

Why do we use this picture in the front of this catalogue? Certainly not to create the impression that we are selling her kind by the truck load, for far too few of her like are produced ever.

We do however feel that this sale contains a great lot of cattle. It is not a promiscuous consignment sale where numbers are the only objective.

For the most part our consignors have long records as constructive breeders and those who have more recently joined our ranks are equally exacting in the selection of their herd sires and cow herds. It therefore is only natural that you should find in this sale the kind of cattle that are improvers and backed by the best of pedigrees.

This is most important. The consignors to this sale make every reasonable effort to see that all guarantees are fulfilled and the customer is satisfied.

He has had only his mother's milk, was weaned November 10th and put on feed. He weighed 836 pounds the day this footnote was written and should weigh close to 1,000 pounds on sale day when he will be 13 months old. The breeder looking for "weight for age" should give this fellow a lot of consideration.

**CALEDONIA FLEDA MISSIE x**—The description of Lot 54 applies to this heifer also. They are seven-eighths full sisters and are perhaps the first polled Fledas to be offered. We offer them as further evidence to support our claim that Hillside Fascinator x, our Cherry Hill bred son of Collynie Compact x will eventually be known as the greatest breeding son of that great sire. Bang's vaccinated. Herd accredited.
